

AKSHAY JAGJIVAN

Lead Software Developer

akshay.jagjivan01@gmail.com | 0649011930 | [Visit My Website](#)

PROFESSIONAL SUMMARY

Accomplished Lead Software Developer with 4+ years at Sparrow Enterprises of progressive experience in IT and software development. Proven track record of technical leadership and full-stack development expertise. Demonstrated ability to drive projects from conception to completion while mentoring team members and implementing best practices. Strong background in both front-end and back-end technologies with a focus on creating scalable, efficient solutions in software-rich environments.

Started with technical support,

PROFESSIONAL EXPERIENCE

Lead Software Developer, Sparrow Enterprises

May 2023 - Present

As the Lead Software Developer, I spearhead technical initiatives and mentor development teams while maintaining high standards of code quality and project delivery. Key responsibilities and achievements include:

- Lead development teams in implementing complex software solutions using modern technology stacks
- Establish and enforce coding standards, review processes, and quality assurance protocols
- Drive architectural decisions and technology selection for enterprise-level applications
- Mentor junior developers and facilitate knowledge sharing within the team
- Understanding requirements and liaising with business analysis.

Online Digital Assistance/Stack Developer, Sparrow Enterprises

June 2021 - April 2023

- Developed and maintained full-stack applications using Spring, React, Laravel, and modern technologies
- Designed and implemented RESTful APIs for system integration
- Collaborated with cross-functional teams to deliver high-quality software solutions
- Contributed to technical architecture decisions and system design improvements

IT System Support, Sparrow Enterprises

January 2021 - June 2021

- Provided advanced technical support for enterprise systems
- Managed system configurations and implemented security protocols
- Resolved complex technical issues and improved system efficiency

IT Technical Support, Sparrow Enterprises

January 2020 - June 2020

- Delivered front-line technical support for users and systems

- Maintained IT infrastructure and implemented preventive maintenance
- Created technical documentation and solution guides
